

WHD-15 FULL HEIGHT RAILINGS

MB-15R

MB-15D

Application

The MB-15 full height railings are meant to complete passage ways equipped with full height turnstiles of RTD-15 series. Used in combination with RTD-15 full height turnstiles/full height security gates, they will ensure a completely enclosed secure passage area.

With high corrosion protection of the aluminum alloy frame the railings will withstand many years of harsh environmental exposure.

Options

The MB-15 full height railings can be used together with extension sections and middle post sections to fill the smaller gaps between the full height elements to make the passage even more secure. Purposely designed brackets and mounting plates will properly connect all the elements (full height security gates, turnstiles and railings) in one robust secure construction.

Materials and Finishes

Frame – powder coated aluminum.

Sandpaper powder coating with pearl mica effect:
